AZEBI-ALEX STEVEN TEMEOWEIKARILAYIFA

Full Stack Developer

Bayelsa, Nigeria | tipo4542@gmail.com | +234 8135854955 | tinyurl.com/3jvn89t5 | github.com/Tipo45

PROFESSIONAL SUMMARY

Web Developer with 3+ years of experience building responsive, user-focused, and efficient web applications across e-commerce, healthcare, event management, and service platforms. Proficient in React, Next.js, TypeScript, Tailwind CSS, PocketBase, Convex, REST APIs, and PWA development, with experience delivering at least 5 web-based projects. Currently developing and maintaining high-performance websites and applications, integrating APIs and third-party services while optimizing existing systems for usability and performance. Strong in problem-solving, debugging, responsive design, collaboration, and writing clean, maintainable code.

WORK EXPERIENCE

Frontend Developer

TechLink Innovations, Edinburgh, United Kingdom **April 2025 – Present**

- Designing and developing responsive, high-performance websites and web applications.
- Collaborated with designers and back-end developers to deliver user-centred solutions.
- Wrote clean, efficient, and well-documented code.
- Maintained and optimized existing applications for performance and usability.
- Integrating APIs, and third-party services where required.
- Ensured cross-browser compatibility.

Web Developer Trainee & Data Entry Assistant

E-governance and Due Process, Yenagoa, Bayelsa State **June 2023 – November 2023**

- Assisted in front-end web development, working with HTML, CSS, and JavaScript.
- Improved system performance through code optimization.
- Managed and maintained accurate digital records.
- Collaborated with teams on technical and administrative tasks.

EDUCATION

BSc Computer Science and Informatics

Federal University Otuoke, Bayelsa State **Graduated: 2024**

PROJECTS

EMRMS | *React, PocketBase*

- Developed a secure and responsive system for managing patient data with React and PocketBase
- Implemented structured data handling and user-friendly interfaces

TicketsGig | *React, PocketBase*

- Designed a secure event ticketing platform for sale and purchase of tickets with React and PocketBase
- Integrated an interactive dashboard to track sales and availability of tickets for event managers

Crimson Cart | *NextJs, Convex*

- Developed a full-stack Progressive Web Application e-commerce platform with modern interface using Nextjs, TypeScript, and Convex, demonstrating efficiency in both front-end and back-end development
- Implemented user authentication with Clerk, cart, checkout flow, protected routes for the different types of users and responsive product design

CASCADE 2026 | *NextJs, Convex*

- Developed a platform enabling participants of different categories register for a conference where selected participants can also upload papers using NextJs and Convex
- Integrated an admin dashboard to track registrations, payments, submitted papers and communicate with attendees
